Record the PRO and date ahead of arrivals. As racers arrive, record their sail number and the name of the skipper and crew on the form on the next page. Copy the sail numbers to this page.

This page is used during racing. Before each race record the course to be sailed. During each race, record above the place number of each boat as it crosses the finish line (1 for first, 2 for second, etc), and record the status (DNS, OCS, DNF, DSQ) of boats that were not credited with completing the race. After each race make sure all of the boats and place numbers are accounted for and that the course has been entered.

Abbreviations are: Did Not Start (DNS), On Course Side (OCS), Did Not Finish (DNF), and Disqualified (DSQ).

If 12 racers or less are expected, the short form (single page) is easier to use.

This form is needed for larger participation (up to 24) but works for both.

This is a two page form which can be printed double sided.
